

# **GB** Jupio PowerVault DSLR

## **Introduction**

The Jupio PowerVault DSLR has a first class design and a high level of technical quality, compatible with 95% of all USB powered products in the market. Two outputs allows for fast charging. Its DC port can supply power for a DSLR camera and a video camera.

## **Specifications**

Battery Cell – Polymer Cell  
Capacity – 28 Wh  
Input 1 – 5.0V/ 2A  
Output 1 – 5.0V/ 2.1A  
Output 2 – 7.2-8.4V/ 2A Max  
Charging time – 5.0V/ 2A 4,5-5,0 hours  
Cycle life - >500 times  
Working temp - -10C - 40C  
Storage temp - -10C - 40C  
Size 110\*70\*18,3mm  
Weight – 188g

## **Operating instructions**

Always charge the PowerVault laying down instead of hanging on a wall power socket, thus to prevent the powervault from falling.

## **Important safety instructions**

**Before using the powervault, please read and follow these rules carefully**

1. When using the powervault for the first time or using the powervault after long-term storage, the powervault may have been gradually automatically discharged, so the powervault can achieve its best performance after generally 5-6 complete charges and discharges.
2. The powervault should be charged in a spacious environment, high or low temperature can impact the batteries performance.
3. Don't put this product into water.
4. Don't throw, beat strongly or shake this product, otherwise it may damage the internal parts and its whole structure.
5. Don't move the powervault close to fire or other sources of heat, in order to avoid damaging the product.

6. Don't use sharp metal objects near the powervault's charging and discharging ports, otherwise it will cause short circuiting, which will damage the product.

## Package Contents

Powervault - 1PCS  
USB cable - 1PCS  
Manual - 1PCS  
Battery case - 1 PCS  
Cloth bag - 1 PCS

- ① Output 1
- ② Input 1
- ③ Output 2 (2.1\*5.5mm)
- ④ LED Indicator Light
- ⑤ Power Switch
